

Construction on West Capitol Campus.

We have been notified of road construction taking place on the West Capitol Campus.

Sid Snyder Way on the West Capitol Campus is closed from Capitol Way to Cherry Lane, and will remain closed possibly through November.

Significant disruptions will result from the work effort. Pedestrian circulation will be detoured and InterCity Transit's DASH shuttle bus service will be rerouted.

Please find a graphic showing the affected area of the West Campus [here](#). The red dotted line represents the limits of construction; however, all of this area may not be closed for the full project schedule. Please allow extra time to navigate driving and parking in and around the Capitol Campus.
