

Proposed Questions for Stakeholders to Address for 2018 Testimony

1. Is there evidence that the tax preference achieved its purpose, as noted in the 2017 tax preferences reports?
2. Does the preference provide benefits in addition to those stated in its intended or inferred purpose?
3. Do taxes associated with any increased economic activity stimulated by this tax preference exceed the preference's loss of tax revenue?
4. Does this preference have negative consequences? For example, were other industries, workers, or the environment harmed by activities stimulated by this tax preference?
